

WHITE FLINT PHARMACY
11125 Rockville Pike , Rockville , MD , 20852
Phone#: 3018813828 Fax#: 3017709629

Drug NDC: 58468-0041-01
Drug Name: FABRAZYME

What is this medicine?

AGALSIDASE BETA is used to replace an enzyme that is missing in patients with Fabry disease. It is not a cure.

This medicine may be used for other purposes; ask your health care provider or pharmacist if you have questions.

How should I use this medicine?

This medicine is for infusion into a vein. It is given by a health care professional in a hospital or clinic setting. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.
NOTE: This medicine is only for you. Do not share this medicine with others.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:
heart disease
an unusual or allergic reaction to agalsidase beta, mannitol, other medicines, foods, dyes, or preservatives
pregnant or trying to get pregnant
breast-feeding

What if I miss a dose?

It is important not to miss your dose. Call your doctor or health care professional if you are unable to keep an appointment.

Where should I keep my medicine?

This drug is given in a hospital or clinic and will not be stored at home.

NOTE: This sheet is a summary. It may not cover all possible information. If you have questions about this medicine, talk to your doctor, pharmacist, or health care provider.

What should I watch for while using this medicine?

Visit your doctor or health care professional for regular checks on your progress. Tell your doctor or healthcare professional if your symptoms do not start to get better or if they get worse.
There is a registry for patients with Fabry disease. The registry is used to gather information about the disease and its effects. Talk to your health care provider if you would like to join the registry.

What side effects may I notice from receiving this medicine?

Side effects that you should report to your doctor or health care professional as soon as possible:
allergic reactions like skin rash, itching or hives, swelling of the face, lips, or tongue
breathing problems
chest pain, tightness
depression
dizziness
fast, irregular heart beat
swelling of the arms or legs
Side effects that usually do not require medical attention (report to your doctor or health care professional if they continue or are bothersome):
aches or pains
anxiety
fever or chills at the time of injection
headache
nausea, vomiting
stomach pain, upset

This list may not describe all possible side effects. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.
